Dear Township Trustees / Fiscal Officers/ Village Mayors / Village Administrators:

Re: OPWC Resurfacing Applications 2023

Please share this at your Township / Village Meeting.

It is that time of year that the County Engineer's office is putting together the **OPWC Resurfacing** applications for 2023.

Your Township/ Village will be responsible for 50% of the cost for resurfacing for these OPWC projects.

For your planning purposes.....

Asphalt Resurfacing – 1 mile x 18 feet wide x 1.5 inches thick = \$76,000 or **\$0.80 per square foot**
*** This does not include milling or pavement markings***

These are planning estimate costs for you to determine what you would like to do before submitting your form. We will develop a detailed estimate after all requests have been received.

Keep in mind that there is a limited amount of funds and that all Townships / Village may not be able to participate. Priority will be given to those based on the OPWC funds they have received in the past and the number of applications for resurfacing.
