Nathaniel Ratnasamy, MD – Medical Director

Date Posted Internally and Externally: 09/21/2020

Position: License Social Worker/ Help Me Grow Home Visitor/Full-Time

General statement of duties:

Help Me Grow is a voluntary family support program for pregnant women or new parents. Offered in every county of the state through a well-established network, Help Me Grow is an evidence-based program that promotes healthy growth and development. The program is offered prenatally through age 3. As a home visitor you will become well-trained and use a non-judgmental and compassionate approach to empower parents with skills, tools and confidence to nurture the healthy growth of their baby.

Although this position focuses primarily on the Help Me Grow program, it will also encompass an array of other public health nursing duties. Some of these duties include cross training in other nursing programs such as communicable diseases, immunizations, Bureau for Children with Medical Handicaps, and school nursing.

Required education, experience, and training:

- Must hold and maintain current licensed social worker (LSW) in the state of Ohio
- Ability to establish and maintain cooperative working relationships with employees, officials, and other agencies and the public.
- Must hold and maintain continuing educations units (CEU's) as prescribed for licensing.
- Excellent communication skills and ability to foster partnerships
- Well versed in modern office procedures, practices, equipment, and software
- Ability to operate a personal computer
- Must have a valid driver's license and reliable transportation
- Must have a baseline Ohio Bureau of Criminal Investigation (BCI)

Preferred qualifications:

- Current BLS certification
- Pediatric Experience
- Help Me Grow experience

one-year experience working with pregnant women, infants, or toddlers.

Additional requirements:

- Retain current licensure if applicable.

Interested parties submit resume to:

Hancock Public Health

Organizational Key Competencies:	
All Hancock Public Health (HPH) employees are expected to ensure that Hancock County residents are protected from disease and other public health threats, and to empower others to live healthier, safer lives. In addition, all HPH employees are expected to meet specified competencies in the following areas:	
<ul style="list-style-type: none"> • Customer Focus: Ensure the health and safety of our community within my abilities and resources and treat our many, diverse customers with thoughtful listening and respect. • Accountability: Be accountable for knowing the scope of HPH programs and for maintaining the public's trust through credible information, quality programming and services, and fiscal integrity. • Equity & Fairness: Interact with clients, community partners and staff with fairness and equity and deliver services free of bias or prejudice. • Continuous Quality Improvement: Establish and maintain organizational capacity and resources to support CQI. • Occupational Health & Safety: Follow all safety rules, proactively work to prevent accidents, and encourage the use of sound judgment in order to comply with departmental and city occupational safety regulations. • Emergency Preparedness: Promptly identify and respond to public health threats and priorities which may involve working outside of day-to-day tasks. • Communication: Communicate in a respectful manner in both written and oral formats with linguistic and cultural proficiency. 	
Position Specific Key Competencies for Public Health Professionals:	
Analytical/Assessment Skills	
1A1	Describes factors affecting the health of a community (e.g. equity, income, education, environment)
1A2	Identifies quantitative and qualitative data and information (e.g., vital statistics, electronic health records, transportation patterns, unemployment rates, community input, health equity impact assessments) that can be used for assessing the health of a community
1A3	Applies ethical principles in accessing, collecting, analyzing, using, maintaining, and disseminating data and information
1A4	Uses information technology in accessing, collecting, analyzing, using, maintaining and disseminating data and information
1A5	Selects valid and reliable data
1A6	Selects comparable data (e.g., data being age-adjusted to the same year, data variables across datasets having similar definitions)
1A7	Identifies gaps in data
1A8	Collects valid and reliable quantitative and qualitative data
1A9	Describes public health applications of quantitative and qualitative data
1A10	Uses quantitative and qualitative data
1A11	Describes assets and resources that can be used for improving the health of a community.
1A12	Contributes to assessments of community health status and factors influencing health in a community
1A14	Describes how evidence (e.g., data, findings reported in peer-reviewed literature) is used in decision making
Policy Development/ Program Planning Skills	
2A1	Contributes to state/Tribal/community health improvement planning (e.g., providing data to supplement community health assessments, communicating observations from work in the field)
2A2	Contributes to development of program goals and objectives
2A4	Contributes to implementation of organizational strategic plan
2A6	Gathers information that can inform options for policies, programs, and services (e.g., secondhand smoking policies, data use policies, HR policies, immunization programs, food safety programs)
2A8	Implements policies, programs and services
2A9	Explains the importance of evaluations for improving policies, programs, and services
2A11	Applies strategies for continuous quality improvement
Communication Skills	
3A1	Identifies the literacy of populations served (e.g., ability to obtain, interpret, and use health and other information; social media literacy)
3A2	Communicates in writing and orally with linguistic and cultural proficiency
3A3	Solicits input from individuals and organization for improving the health of a community
3A4	Suggests approaches for disseminating public health data and information (e.g., social media, newspapers, newsletters, journals, town hall meetings, libraries, neighborhood gatherings)
3A5	Conveys data and information to professionals and the public using a variety of approaches
3A6	Communicates information to influence behavior and improve health
3A7	Facilitates communication among individuals, groups, and organizations
3A8	Describes the roles of governmental public health, health care, and other partners in improving the health of a community
Cultural Competency Skills	
4A1	Describes the concept of diversity as it applies to individuals and populations
4A2	Describes the diversity of individuals and populations in a community
4A3	Describes the ways diversity may influence policies, programs, services and the health of a community
4A4	Recognizes the contribution of diverse perspectives in developing, implementing, and evaluating policies, programs, and services that affect the health of a community
4A5	Addresses the diversity of individuals and populations when implementing policies, programs, and services that affect the health of a community

Community Dimensions of Practice Skills	
5A1	Describes the programs and services provided by governmental and non-governmental organizations to improve the health of a community
5A2	Recognizes relationships that are affecting health in a community
5A3	Suggests relationships that may be needed to improve health in a community
5A4	Support relationships that improve health in a community
5A5	Collaborates with community partners to improve health in a community (e.g., participates in committees, shares data and information, connects people to resources)
5A6	Engages community members
5A7	Provides input for developing, implementing, evaluating, and improving policies, programs, and services
5A8	Uses assets and resources (e.g., Boys & Girls Clubs, public libraries, hospitals, faith-based organizations, academic institutions, federal grants, fellowship programs) to improve health in a community
5A9	Informs the public about policies, programs, and resources that improve health in a community
5A10	Describes the importance of community-based participatory research

Public Health Sciences Skills	
6A4	Retrieves evidence (e.g., research findings, case reports, community surveys) from print and electronic sources (e.g., PubMed, <i>Journal of Public Health Management and Practice</i> , <i>Morbidity and Mortality Weekly Report</i> , <i>The World Health Report</i>) to support decision making
6A5	Recognizes limitations of evidence (e.g., validity, reliability, sample size, bias, generalizability)
6A6	Describes evidence used in developing, implementing, evaluating, and improving policies, programs, and services
6A7	Describes the laws, regulations, policies, and procedures for the ethical conduct of research (e.g., patient confidentiality, protection of human subjects, Americans with Disabilities Act)
6A8	Contributes to the public health evidence base (e.g., participating in Public Health Practice-Based Research Networks, community-based participatory research, and academic health departments; authoring articles; making data available to researchers)
6A9	Suggests partnerships that may increase use of evidence in public health practice

Financial Planning and Management Skills	
7A1	Describes the structure, functions, and authorizations of governmental public health programs and organizations.
7A3	Adheres to organizational policies and procedures
7A4	Describes public health funding mechanisms
7A5	Contributes to development of program budgets
7A6	Provides information for proposal for funding
7A7	Provides information for development of contracts and other agreements for programs and services
7A8	Describes financial analysis methods used in making decisions about policies, programs, and services (e.g., cost-effectiveness, cost-benefit, cost-utility analysis, return on investment.
7A9	Operates programs within budget
7A11	Motivates colleagues for the purpose of achieving program and organization goals
7A12	Uses evaluation results to improve program and organizational performance
7A13	Describes program performance standards and measures
7A14	Uses performance management systems for program and organizational improvement

Leadership and Systems Thinking Skills	
8A1	Incorporates ethical standards of practice
8A2	Describes public health as part of a larger inter-related system of organizations that influence the health of populations
8A3	Describes the ways public health, health care, and other organizations can work together or individually to impact the health of a community
8A4	Contributes to development of a vision for a healthy community (e.g. emphasis on prevention, health equity for all, excellence and innovation)
8A5	Identifies internal and external facilitators and barriers that may affect the delivery of the 10 Essential Public Health Services
8A6	Describes needs for professional development
8A7	Participates in professional development opportunities
8A8	Describes the impact of changes
8A9	Describes ways to improve individual and program performance
